

# Have you seen this plant?

*Solanum rostratum* (buffalo bur, Solanaceae) is an annual, spiny, alien weed found scattered throughout the UK.

I am trying to locate as many populations as possible for a research project on the reproductive biology of potentially invasive plants.

If you see this plant please fill in the form below and mail/e-mail the information to:  
*Dr. Mario Vallejo-Marin, SBES, University of Stirling, Stirling, Scotland FK9 4LA*  
mv9@stir.ac.uk

Location (please provide as many details as possible): \_\_\_\_\_

\_\_\_\_\_

Date observed: \_\_\_\_\_

Is the plant flowering? \_\_\_\_\_

Abundance (rare/common): \_\_\_\_\_

Your name: \_\_\_\_\_

Can you send me a picture of the plant?
